ABOUT THIS GUIDE

Welcome to Central Florida! In your hands is the inaugural edition of the *Greater Orlando Relocation Guide™*, a comprehensive guide to help you settle into your new home. This guide includes information to help you have a successful move to the area, as well as ideas for what to do once you have settled.

Here are just a few reasons why the Greater Orlando area is a great place to live:

- Year-round enjoyable weather
- Deep historical roots
- Large urban park systems throughout the region
- Cutting edge, regional health care facilities ranked among the best in the Southeast and in the U.S.
- Outstanding primary and secondary schools
- World-famous theme parks and entertainment
- A vibrant cultural arts community with Broadway shows, festivals, museums, special events, attractions and more.

The 2016 edition of the *Greater Orlando Relocation Guide* has information to aid you in all aspects of your move including where to obtain your driver's license, whom to contact for utility services, what options are available in hospitals and surgery centers, and even hotspots to hit on your nights out.

The extensive Neighborhoods section, with its convenient map, will help you find the home of your dreams. When it's time to enroll your children in area schools, the Education section will serve as a valuable resource with registration information, alternative schooling options and frequently used phone numbers, all listed by county.

To give you a taste of all Orlando and the surrounding cities have to offer, the guide includes sections on sports, entertainment, historical sites and museums, attractions, shopping and nightlife.

Discover why Central Florida is an economically sound region, with all the tools in place to expand your business, and why the region is one of the fastest growing in the U.S. Learn about the various transportation services around Greater Orlando, including aeronautical and rail, which make Central Florida a major logistics center as well as a convenient location for individuals who need to get from point A to point B.

We hope the *Greater Orlando Relocation Guide* helps you connect with all that's happening in Central Florida. But, above all, we hope the information contained in this guide makes your move to Greater Orlando a smooth and pleasant experience.

LIVE · WORK · PLAY IN GREATER ORLANDO

With its diverse culture, beautiful cityscapes and unique attractions,
Central Florida is a blend of rich history and modern appeal.

When people hear “Orlando,” they often picture the Disney theme parks and Universal Orlando, but while it is a source of lively entertainment and adventure, Central Florida is made up of so much more. A region rich in history and culture, Central Florida is home to sought-after communities including Maitland, Winter Park, Sanford, West Volusia, Casselberry, Goldenrod and East Orlando—all with their own special something that newcomers are sure to find welcoming. With gorgeous gardens, local boutiques, thriving businesses and friendly neighborhoods, Central Florida is the perfect place to live, work and play.

Back in the Day ...

Central Florida’s history can be traced back to a Seminole tribe that first occupied the area. Originally from a Creek tribe in Georgia and Alabama, conflicts with European settlers caused tribe members to migrate to Florida in the 1700s. Therefore these indigenous Floridians were named Seminoles, meaning

“runaways.” In 1835, a series of disputes between the Seminoles and European settlers occurred. Arguments over land, crops and slaves triggered the Second Seminole War from 1835 to 1842. In 1838, the U.S. Army built Fort Gatlin south of present-day Orlando to protect the settlers.

Following the war and the relocation of the Seminole tribe, the fort became a city center called Jernigan, named after a group of pioneers from the Jernigan family who settled in the area. The establishment of a post office in 1850 made the community’s name official. It wasn’t until Jernigan expanded into the north six years later that the name was officially changed to Orlando. Though there are a number of stories regarding how Orlando was named, many believe the city’s namesake is Orlando Reeves, an American soldier. When a native, disguised as a log of wood, approached Reeves and his fellow soldiers, Reeves fired his gun to alert everyone of potential danger. The U.S. Post Office recognized the name change in 1857. With 85 inhabitants, the Town of Orlando was established and began its transition into the

large metropolitan area we know today. Around this time, more settlements sprang up along the St. Johns River in the area now known as West Volusia County.

Prior to the 20th century, cattle breeding and cotton growing dominated Central Florida's economy. From 1875 to 1895, the city became the center for Florida's citrus industry. To foster the region's economic success, improved transportation was requested by the city's citrus growers.

In 1881, the first rail lines were constructed, promoting an influx of fruit growers to Central Florida. Orlando became known as the "Phenomenal City" in 1886 as it continued to modernize. The population doubled between 1910 and 1920 as it continued its transformation into a major city. As Orlando's prosperity continued, new buildings took over the rural area expanding into the outlying areas. Prior to World War II, new companies established roots in the city, prompting new neighborhoods, shopping centers and roadways to follow.

Hotels, apartments, banks and commercial shopping centers sprang up in 1971 as the formation of Walt Disney World brought in waves of tourists. Southwest of downtown Orlando, the inland cities of Bay Lake and Lake Buena Vista were chosen as the location for Walt Disney World's theme parks to avoid hurricane damage. Magic Kingdom Park opened in 1971 and Epcot, Disney-MGM Studios (renamed Disney's Hollywood Studios in 2008) and Animal Kingdom followed soon after. With the addition of SeaWorld in 1973 and Universal Orlando Resort in 1990, the area became a world-recognized tourist destination. With tourism now its primary industry, Central Florida has become a vacation spot that caters to all interests.

"Central Florida is recognized not only as a theme park destination, but also for its reputation as a business center."

Central Florida is recognized not only as a theme park destination, but also for its reputation as a business center. The area's technology industry—ranging from software and digital media to tools developed for military services—attracts high-tech businesses known for their diversification.

Here and Now ...

Central Florida is a source of lively entertainment and adventure for those who explore it. Whether visiting one of the many theme parks or finding new stomping grounds, newcomers are sure to find Central Florida welcoming. With gorgeous gardens, exciting performances, local boutiques and friendly neighborhoods, you will be proud to call Central Florida your new home.

Home to more than just Mickey Mouse, the Greater Orlando area is full of opportunity, magic and breathtaking sights. Classical architecture and shady oaks provide a picturesque glimpse into what makes this area so special. Lake Eola Park in downtown Orlando was established in 1888 under the promise that the city's beauty be maintained. Today, the Lake Eola Park fountain stands as the unofficial icon of Orlando and that promise. The inland city of Orlando is bordered by Ocala, Lakeland and Titusville, and covers a total of 110.2 square miles, making it the fifth largest city in the state. The counties in the Orlando metropolitan area include Orange, Osceola and Seminole, with West Volusia as a close neighbor. The Greater Orlando area has become the third largest metropolitan area in Florida, and the 26th largest in the U.S. The regional population is currently 2.3 million.

The Orlando area continues to prosper with its industries of leisure and hospitality services successfully expanding by the day. This has caused the area to become one of the fastest growing business centers. Central Florida is a point for global commerce with an industry dominated by leisure and hospitality services. Central Florida is also home to a \$14 billion technology industry and a collection of innovative startups, sustaining Orlando as one of the fastest-growing business centers in the U.S. The area has become a leader in innovation and diversity.

Orlando is also headquarters of the Fortune 500 company Darden Restaurants, which owns Bahama Breeze, The Capital Grill and Seasons 52 among others. Considered "The Theme Park Capital of the World," Central Florida attracted more than 62 million tourists in 2014, the first destination to do so. Walt Disney World is the largest single-site employer in the U.S. Central Florida's young and passionate workforce adds to the area's prestigious reputation. The region's labor force has reached over 1.2 million workers.

Thirty-two percent of the workforce has completed a bachelor's degree or higher, adding their expertise to Central Florida's diverse workforce. As home to the University of Central Florida, the nation's second largest college campus by enrollment, Greater Orlando has a growing reputation for standards in education. The area is seen as a center for innovation, imagination and entertainment for both locals and visitors. Central Florida provides a high quality of life while offering unique experiences and opportunities for all.

RICK SCOTT
Governor

January 2016

Dear Friends:

Welcome to Orlando and Central Florida, home to great climate, nearby beaches and freshwater springs, and thriving businesses.

Here in Florida, we've worked hard to create an environment that's better to do business so families can succeed. We've cut taxes 50 times, paid down state debt, and eliminated over 3,200 burdensome regulations. CEO magazine ranked Florida second in the country for its business environment, and we recently surpassed New York as the third largest state. Florida's economy is thriving, and people all over the country can see we have the best state to live, work, and raise a family.

Orlando has played a big part in the tremendous job growth seen across our state, and we are working every day so our state can be first in the nation for job creation. Welcome to Central Florida, and we look forward to welcoming new residents and businesses to Florida!

Sincerely,

A handwritten signature in blue ink, which appears to read "Rick Scott". The signature is stylized with a large, sweeping initial "R".

NEIGHBORHOODS

The diversity of cities and neighborhoods in the Central Florida region gives newcomers plenty of opportunities when looking for a new home or exploring the area.

From high-rise apartments in the heart of downtown Orlando to charming, single-family homes in the suburbs, Central Florida is perfect for anyone looking to relocate. The following is an overview of the incorporated towns and cities in Orange, Osceola, Seminole and West Volusia counties.

ORANGE COUNTY

APOPKA

Apopka is the second largest city in Orange County, encompassing about 24 square miles and offering a vast selection of housing options. Apopka ranked No. 14 on *Forbes* magazine's list of "America's Friendliest Towns" in 2012. Residents of Apopka enjoy the feel of a quiet, small-town atmosphere that is rich in history and culture. This active and growing community offers amenities that enhance the quality of life of residents and visitors alike.

BAY LAKE/LAKE BUENA VISTA

Bay Lake and Lake Buena Vista are Orange County cities owned by the Walt Disney Company, and are home to the Walt Disney World Resort. Primarily viewed as tourist attractions, the cities

have a combined population of fewer than 100 people, all of whom are Walt Disney World employees. Both Bay Lake and Lake Buena Vista were incorporated in 1967, when Lake Buena Vista was known as the City of Reedy Creek. The city was renamed shortly thereafter.

BELLE ISLE

The small city of Belle Isle, which translates to "beautiful island," was first established in 1924. Belle Isle is conveniently located three miles from Orlando International Airport and five miles from the city of Orlando. Belle Isle is currently home to approximately 6,000 residents, but the area is believed to have been populated since the 9th century when the Timucua tribe lived along Lake Conway. Today, several grassy, picturesque parks overlook the lake.

EATONVILLE

Eatonville, located six miles north of the city of Orlando, was one of the first all-black cities established in the U.S. after the 1863 signing of the Emancipation Proclamation. Eatonville was home to Zora Neale Hurston, a renowned writer and anthropologist who was prominent in the early 20th century. Each year, the small town celebrates its history and Hurston with the Zora Neale Hurston Festival of the Arts and Humanities.

EDGEWOOD

The small but thriving city of Edgewood began its history in the late 19th century with the construction of a railroad connecting Tampa to Orlando. As the town's community grew, so did its population. Today, the 1.5-square-mile city is considered a quaint residential area amid its urban surroundings—only three miles south of downtown Orlando. Residents enjoy peaceful, lakefront homes and beautiful, canopied streets lined with oak trees.

LAKE NONA

Lake Nona is a planned community located in southeast Orlando. It is home to Lake Nona Medical City, a health and life sciences park that spans 650 acres. The area has several bioscience and health care facilities. Lake Nona also has innovative schools that use new teaching tools and technologies for students of all ages. There is a variety of housing options, including apartments, houses and multi-family homes. Lake Nona is full of parks and has 44 miles of trails waiting to be explored.

MAITLAND

Established in the mid-1800s, Maitland is one of the oldest incorporated cities in Central Florida and offers a landscape rich in culture and history. With a wide range of recreational activities and natural features, this small suburb is famous for its artistic scene. Included on the National Register of Historic Places and recognized by the state of Florida as a historic site, the Maitland Art Center features picturesque Spanish architecture and offers gallery exhibitions, art programming and art classes.

OAKLAND

Established in 1887, Oakland is a quaint town located north of downtown Orlando along the southern shores of Lake Apopka. Filled with enormous moss-draped oak trees and tree-lined clay streets, Oakland is home to the Oakland Nature Preserve and West Orange Trail. Despite the rapid growth of the surrounding communities, the town strives to maintain its image of being “Nestled among the Oaks.” Residents and visitors alike love Oakland's laidback charm that represents the essence of yesterday's old Florida towns.

OCOOE

The city of Ocoee is located approximately 10 miles west of downtown Orlando. The city earned its reputation as “the Center of Good Living” because it is ideal for families looking to reside in an established, commercial community with a small-town atmosphere. Historical infrastructures and brick roads intertwined with new buildings make Ocoee an ideal example of the successful blending of growth and history. More than 35,000 residents in the community take advantage of nearby shopping, dining and movie theaters.

NEIGHBORHOODS

ORLANDO

Orlando is Orange County's largest city and the third largest metropolitan area in Florida. As home to the world's most famous mouse, Orlando is known as an international vacation destination. Although it is a tourist mecca, the city is home to residents who love Orlando's urban lifestyle, social scene, and parks and recreation. This urban vibe is driven by Orlando's economy and demographics. Tree-lined streets, lush parks and lakes earned Orlando the nickname "the City Beautiful." At the heart of the city of Orlando lies downtown Orlando. This thriving urban area is the hub for much of Central Florida's economy, with prominent professional industries such as media, entertainment and financial institutions. In addition to its strong business presence, downtown Orlando includes residential neighborhoods that feature a range of atmospheres from quaint to urban; from historic to modern. Outside of downtown, Orlando also contains peaceful neighborhoods away from the hustle and bustle of tourists, yet close to everyday conveniences.

WINDERMERE

Located in the southwestern corner of Orange County, 14 miles southwest of Orlando and two miles south of Ocoee, Windermere provides luxury living with small-town charm. Surrounded by eight beautiful, sand-bottomed lakes known as the Butler Chain of Lakes, Windermere is the perfect place for waterfront living and lake recreation. The town has been recognized as a Tree City USA by the Arbor Day Foundation because of its commitment to preserving the natural environment, history and community spirit.

WINTER GARDEN

Located in western Orange County and 14 miles west of downtown Orlando is the city of Winter Garden. The city is listed on the National Registry of Historic Places and residents have a variety of architectural styles from which to choose when selecting a home. Winter Garden is part of America in Bloom, which encourages the improvement of the quality of life in neighborhoods while promoting community pride. Oakland Park is the first certified green community in Central Florida and offers the "Made in Shade" program to help develop a tree canopy in the neighborhood.

WINTER PARK

Winter Park is located just three miles northeast of Orlando and is considered by many to be a premier urban village in the Sunshine State. This 9-square-mile city with more than 27,000 residents is full of nature and history. Known for its old world charm, Winter Park has a European architectural style with elegant homes, quaint brick streets, extensive tree canopies, upscale shopping and unique dining experiences. Winter Park celebrates the Sidewalk Art Festival the third week of March, which is recognized as one the nation's oldest, largest and most prestigious juried outdoor art festivals.

OSCEOLA COUNTY

KISSIMMEE

The county seat for Osceola County, Kissimmee is located 18 miles south of Orlando and 15 minutes from Orlando International Airport. Kissimmee was once a hub for steamship transportation, but its current industries are cattle ranching and tourism due to its proximity to Walt Disney World. Kissimmee residents have access to affordable housing including single-family homes, town homes and apartments. Residents also have a thriving downtown district, a wide range of parks and recreational facilities, outdoor water parks, and golf courses.

ST. CLOUD

The city of St. Cloud is situated in northern Osceola County, nine miles east of Kissimmee, about 26 miles southeast of Orlando, and about 45 miles west of Melbourne and the Atlantic coast. St. Cloud was founded in 1909 as a retirement community for Civil

War Union veterans. This charming, family-oriented community has various recreational areas including the Chris Lyle Aquatic Center, Reptile World Serpentarium, the St. Cloud Heritage Museum and St. Cloud Lakefront Park.

SEMINOLE COUNTY

ALTAMONTE SPRINGS

Nestled in southwestern Seminole County, Altamonte Springs is conveniently located at the crossroads of Interstate 4 and State Road 436. Housing options include condominiums, apartments, single-family homes and lakefront homes. The community is home to Cranes Roost Park, a beautifully landscaped lakeside park that features a stadium-style amphitheater with a floating stage, as well as a nightly fountain and light show. Lake Lotus Park offers extensive nature trails, a fishing pier, picnic grounds and playgrounds.

CASSELBERRY

Once an agricultural town, Casselberry has become a thriving city that offers a rich quality of life to residents. Located in the southernmost part of Seminole County, Casselberry is just 10 miles north of downtown Orlando. This family-oriented city features 17 parks and more than two dozen lakes. Multiple golf courses within the city limits are available for golf enthusiasts. Casselberry has been recognized as a Tree City USA by the Arbor Day Foundation due to its commitment to community forestry.

LAKE MARY

Lake Mary is located about 18 miles north of Orlando and just off Interstate 4. The city has been featured on *CNN Money Magazine's* list of "100 Best Places to Live," and is home to a several computer software companies, earning it the nickname "the Little Silicon Valley." It has well-planned residential communities, outstanding schools, and upscale shopping and dining. Timacuan Golf and Country Club is one of the best golf courses in Florida, and there is a vast array of nature and wildlife in one of the most scenic areas in Seminole County.

"DeBary is a city full of nature and scenery, as it boasts an extensive parks system, thousands of oak trees and a bird sanctuary."

Museum of Seminole County History

LONGWOOD

Longwood is located in southwestern Seminole County just 15 miles north of Orlando. As one of the oldest cities in the county, Longwood is rich in history. The Historical District encompasses 190 acres and 37 charming, historic structures. Longwood's 13,000 residents also have access to pristine lakes, rivers, bays and waterways for boating, fishing and other activities.

OVIEDO

Situated in eastern Seminole County is the city of Oviedo. The city was inspired by its sister city of Oviedo, Spain and became established in the late 19th century. The city is currently experiencing a growth spurt with the expansion of its downtown area and construction of new residential homes. Oviedo has been featured on *CNN Money Magazine's* "Best 100 Places to Live." In 2013, it was voted as one of the best places to raise children by *Businessweek*. Oviedo maintains some of Central Florida's preserved natural setting, such as the Econlockhatchee River and Lake Jesup.

SANFORD

Nestled along the St. Johns River is the charming city of Sanford. Sanford is one of Central Florida's oldest incorporated cities. It features brick-lined streets, towering oaks and 19th century Victorian homes. Historic downtown Sanford is home to Florida's fourth oldest school in continuous use, a restored Vaudeville theater, antique shops, art galleries and specialty boutiques.

Children and adults alike will love the hundreds of animals at the Central Florida Zoo and Botanical Gardens. The Orlando Sanford International Airport is also the main campus for Aerosim Flight Academy, a pilot training school.

WINTER SPRINGS

Winter Springs is located about 15 miles north of Orlando and is the largest city in Seminole County. The city is a blend of old and new, providing a small-town feel while offering big city entertainment, recreational activities, fashion trends and cuisine. Winter Springs has nine parks, which help encourage residents to live actively and preserve the natural environment. It also hosts the Central Florida Scottish Highland Games, an annual celebration of Scottish-American heritage that features competitions in athletics, Highland dancing, bagpiping and drumming.

WEST VOLUSIA COUNTY

DEBARY

On the northern shore of the St. Johns River, DeBary is a small city where the Timucua tribe resided before they were replaced by the Seminole tribe by 1760. Named after Frederick deBary, a wine merchant from New York, the city has grown into a center of history and culture. DeBary is a city full of nature and scenery as well, as it boasts an extensive parks system, thousands of oak trees and a bird sanctuary.

DELAND

DeLand is a city north of Orlando and the county seat of Volusia County. It is home to Stetson University, the oldest private college in Florida. Formerly known as Persimmon Hollow, DeLand was settled in 1874 by Capt. John Rich and named after Henry Addison DeLand. It was the first city in Florida to have electricity. The downtown area is a historic district with several 19th century buildings. DeLand is known for its architecture and arts, having hosted the DeLand Fall Festival of the Arts since 1992.

DELTONA

The most populous city in Volusia County, Deltona is located on the north shore of Lake Monroe and along the St. Johns River. Originally established as a planned residential community in 1962 as Deltona Lakes, it grew into one of the largest cities in Central Florida. Because of its location, Deltona acts as a commuter city for residents in Orlando and Daytona Beach.

ORANGE CITY

In the southwestern part of Volusia County lies Orange City. Named after the orange groves planted around the city, this charming town provides residents with the amenities for a fast-paced life. The neighborhoods are some of the safest and most affordable in the county. The city is also brimming with history, with seven sites on the National Register of Historic Places. Residents can enjoy the city's scenic parks and various local events throughout the year.

Casselberry

Located just ten miles north of downtown Orlando in southern Seminole County, the City of Casselberry recently celebrated its 75th anniversary of incorporation. The city is proud to be recognized as a "Tree City USA," honoring its commitment to community forestry.

The city features tranquil residential neighborhoods and a continually expanding business environment with support from excellent municipal services and a strong art community that makes Casselberry a great community to live, work and play.

With 26,241 residents in the 2010 census, Casselberry is just minutes from two international airports and the Interstate 4 corridor, making the Casselberry community easily accessible from and to all parts of the region, state and country.

Finally, the City lies within the Seminole County School District, which is an A rated Florida district and one of the best districts in the state and country.

Casselberry is a dynamic community for business development, offering office, commercial and industrial spaces throughout the City and along its major thoroughfares, which provide a wide customer base for economic growth.

"The City is comprised of thriving and diverse neighborhoods. Excellent City services enhance the quality of life and the working environment of Casselberry. It's the perfect place to live, work and play." Charlene Glancy Mayor/Commissioner

NEIGHBORHOODS

East Orlando

Welcome to the Eastern Region of Orange County, commonly known as East Orlando. Here you will find a rich and robust community ready and waiting to help you find the perfect place to live, work and play!

There has never been such tremendous growth in Central Florida since Disney announced their new home. Orlando is one of the fastest growing communities in the country, thanks in part to education (with nearly 200,000 students attending universities and tech schools and nearly 300 K-12 schools throughout the county), medical care (Lake Nona's Medical City), home to the high-tech corridor, (Research Park), and nature and wildlife (over 170 miles of wide trails under construction to connect parks, shopping, schools, attractions and more). Much of this growth is flowing into the East Orlando Community. Our region is also home to the one of the nation's best-selling Master Planned Communities, Lake Nona. This area is targeted to have phenomenal growth, both residential and commercial, over the next several years. East Orlando is richly populated with tropical waterways, world-class golfing, top-notch fishing, mouth-watering dining and award-winning entertainment ... all within easy reach.

The educational opportunities from pre-school to college are abundant in this area. From highly acclaimed private schools, Grade A public schools and the second largest college in the nation, East Orlando can provide quality education at any level.

Just a short drive away you have access to the Dr. Phillips Center for Performing Arts, boasting 330,000 square feet of inspiration. Beaches to the east and beaches to the west from Cocoa to Clearwater. Do you need a sports fix? Access to a variety of professional sports at state-of-the-art venues, such as world-class soccer, basketball, tennis, college sports and more right in your own backyard. And last but not least, for the kid in all of us, the theme parks are just a short drive away.

If you are looking for a new home for your business, the East Orlando Chamber of Commerce is here to make sure your business gets a sound footing in the community. We live by our tagline, Join|Connect|Grow. When you join the East

Orlando Chamber, you will connect with the community and grow your business. Shake the hands of people you need to connect with for ideas, for motivation, for clients ... for energy. East Orlando is quickly becoming the preferred destination for high-tech, simulation and scientific industries as well as agricultural and hospitality. The Medical Tourism Association has recognized Orlando as the medical tourism "Emerging Destination of the Year!" No matter what business you're in, you're going to find that this community has been waiting for you to arrive.

We have multi-modal transportation with the rapid expansion of our highways, the inter-city SunRail train and additional access roads are being constructed to the airport. A new airport terminal is under construction to welcome the Brightline train that is making a statement for Orlando's growth. Brightline will bring commuters from Miami to Orlando in three hours traveling at 125 mph!

Yes, watch the new global changes in Florida and you'll see that all roads lead to East Orlando and one of those roads will lead to your new home. Welcome to East Orlando! Plug into the "E" Energy; Plug into the "E" of East Orlando Chamber of Commerce!

Goldenrod

The Goldenrod Chamber is celebrating 35 years this year. Formed in 1981 from the Goldenrod Business Association, the Chamber has since extended its boundaries and currently encompasses the area from Semoran Boulevard to Dean Road and from Colonial Drive to Red Bug Lake Road. Chamber membership is available to all businesses interested in promoting the growth of Goldenrod and doing business in the area.

The Chamber provides opportunities to large and small businesses alike, holds monthly functions with informative speakers, produces a monthly newsletter with the Membership Directory and Relocation Guide, and an area map. Networking opportunities are scheduled throughout the year. Each year, the Chamber sponsors the Goldenrod Festival, which includes the Parade, Craft Show, and Carnival, and holds "Tastefully Goldenrod," a silent auction and food tasting, as a fundraiser.

This Chamber was involved in the transformation of the Goldenrod Firehouse into a Community Center and Museum. The fire station is now the permanent address of the Chamber, which is located at 4755 Palmetto Avenue.

Maitland

Maitland, one of the oldest incorporated municipalities in Central Florida, is a city rich in history. The area was once called Fumcheliga (Musk Mellon Place) by the Seminole Indians before it was established as Fort Maitland in 1838 by the U.S. Army. The fort was named after Captain William Seton Maitland, a hero of the Seminole Wars who, ironically, was never in this area, having died in a battle near Tampa. At that time, the only way of getting to Central Florida was by boat from Jacksonville down the St. Johns River to Fort Mellon (Sanford), then by horse or foot. Fort Maitland was a small fort built on the west shore of Lake Maitland as a rest stop between Fort Mellon and Fort Gatlin (Orlando). What is now Maitland Avenue was part of the Old Black Bear Trail which ran from Montreal, Canada to St. Petersburg, Florida and passed by the fort.

When the Indian wars ceased and the fort had been torn down, people began settling in this area because of the natural spring water and extensive pine forests. At the close of the Civil War, settlers came buying large tracts of land, clearing them and planting citrus groves. The first deed for property in the city was written in 1873 to George H. Packwood who built a large hall for town meetings and social gatherings. Packwood Hall, since burned down, was located where City Hall now is. There was a large hotel, Park House, built between Park Lake and Lake Catherine, which became the winter resort for famous people of the time, including two presidents, Grover Cleveland and Chester Arthur.

By 1876 the orange trees were coming into production and difficulty in marketing the fruit caused Dr. Haskell, of the Boston Herald newspaper, to form a syndicate and construct a railroad from Jacksonville to Maitland. This was completed to Maitland in 1880 and for several years, Maitland had an ice factory, two livery stables, and besides the citrus groves, a large packing house in the center of town. As many as 300,000 boxes of fruit were to be shipped each season. The city was incorporated as the Town of Lake Maitland in 1885. After two years of devastating, tree-killing freezes in 1894 and 1895, many of the grove owners were so financially affected that they left Florida. The town survived, however, and wealthy visitors kept coming to enjoy the climate. By 1926, Maitland had its largest year in citrus.

In the 1950's the space age had the eyes of the nation on Central Florida. The Martin Marietta Corporation, as we know it today, moved from Baltimore to Orlando. Families were moved down in contingents of two or three hundred at a time. Due to its proximity to the plant, Maitland became a natural place for them to come. In 1959 a new city charter changed the name from Lake Maitland to Maitland.

In the 1960's, Maitland Avenue and Orlando Avenue (U.S. Highway 17-92) came alive with building construction. Supermarkets opened, as did restaurants, service stations, condominiums, garden apartments and churches. Even though the nation was in a recession, the arrival of Disney World, in 1971, to the Orlando area, had a strong impact on the continuous growth of Maitland. New buildings were sorely needed and numerous older buildings were demolished, including those on the site of the new City Hall, Fire and Police Departments. This complex was completed in 1975.

The growth of the city continued to spiral during the 1970's. Between 1972 and 1979, five branch banking establishments moved to Maitland, and twelve new residential subdivisions were developed. Late in the 1970's, 226 acres of land were purchased by an Atlanta, Georgia firm and developed into Maitland Center west of Interstate 4. Maitland Center is within the city limits and continues to grow.

The City of Maitland has a history of strong residential identity, sustained by the beauty of the area and the diverse economy in the region. This history continues today, and the City will maintain and advance this tradition well into the future.

Sanford

Located in the heart of Central Florida, Seminole County is a favorite destination as the home of some of Florida's best natural attractions. From miles of scenic rivers to acres of beautiful parks and nature preserves, there is endless recreation and a less-crowded, more relaxing environment.

Just minutes from Orlando and the famous theme parks, Seminole County offers a refreshing change of pace. From enjoying the Great Florida Birding Trail to canoeing wild rivers or spotting gators on an airboat tour, Seminole County brings visitors and residents closer to nature.

Central Florida Zoo and Botanical Gardens is Seminole County's largest recreational attraction. The Central Florida Zoo & Botanical Gardens is dedicated to preserving the beauty and wonder of animals and their habitats. The zoo is also involved in conservation and preservation of the world around us.

A favorite attraction at the zoo is ZOOMAIR Park. ZOOMAIR provides an aerial adventures course that allows visitors to explore the treetops from an animal's perspective. ZOOMAIR's aerial adventure courses are deftly woven into the forest of the black water river swamp that is home to the zoo. Integrated with the natural environment, the design of the courses was inspired by the trees and flow of the terrain and flora. The shorter set can also ZOOMAIR Adventure—on a safe but exciting Kids' Course.

Additional zoo activities include weekend Animal Encounters, Keeper Chates, Animal Adventure Children's Zoo, Wharton-Smith Tropical Splash Ground, Massey Services Insect Zoo, Champ the Train and the Animal Carousel. Seminole County, where natural adventures are endless!

More than 2,000 pristine waterways and acres of beautiful parkland are also available to explore in Seminole County. And, when you are through connecting with nature, you will find charming historic areas, fabulous shopping malls, districts, and an eclectic variety of restaurants. Anglers enjoy Florida's best freshwater fishing and golfers can tee off on a variety of world-class courses.

Natural springs, pristine lakes, fascinating wildlife, challenging sports—it is all a walk in the park in Seminole County. More than 30 parks and preserves make the area a favorite destination for bird watching, wildlife study, nature photography, hiking and bicycling. Superb facilities make it easy to take pleasure in your day with boardwalks that

wind through wetlands and provide a glimpse of fragile ecosystems; pavilions and grills for picnics and barbecues; canoe, inner tube and fishing gear rentals; courts for every sport—even sand volleyball; paved trails and playgrounds. A visit to Wekiva Springs State Park is a must; beautiful natural springs offer a breathtaking setting for canoeing, tubing or swimming.

Seminole County is home to 60 miles of picturesque trails, perfect for hiking, biking and enjoying the sights and sounds of nature. The Great Florida Birding Trail runs across several Seminole County wilderness areas, providing the chance to experience some of the world's most enchanting birds.

Enjoy the scenery on the Florida National Scenic Trail, a 1,300-mile trail that runs from the Florida panhandle south to the Everglades. The trail is mostly unpaved except in Lake Mary, where it follows roadways and existing trails to cross the Seminole Wekiva Trail and the Cross Seminole Trail. These two trails have been designated as Seminole County Showcase Trails because of their length, beauty and accommodation of their many users.

From Victorian homes to pottery studios, Seminole County's calming atmosphere holds captivating art, and historical and cultural offerings you will not want to miss. Simply strolling through the charming historic districts of Sanford and Longwood will give you a glimpse of life here hundreds of years ago, as you encounter spectacular Victorian houses, unique antique shops and intriguing museums.

You will discover such historical treasures as the Wayne Densch Performing Arts Center, a perfectly restored vaudeville theater where you can see everything from plays to opera. Numerous art galleries are also yours to enjoy, and the county's "Art in Public Places" program ensures you will see the unique work of local artists on display throughout the area in county buildings.

Seminole County also provides the opportunity to explore numerous museums that paint a remarkable picture of Seminole County's colorful past. Our history has been carefully preserved in exhibits highlighting the area's wilderness beginnings, prehistoric Native American culture, early speculators and settlers, Civil War citizens, and heyday as a bustling rail and steamboat hub. Other historical diversions include a game of baseball at the historic Sanford Memorial Stadium, current home of the Sanford River Rats.

Even pets can enjoy Seminole County parks, as there are several dog parks throughout the county. Sanford is home to Paw Park, part of Paw Park Village.

Our county provides many opportunities and we are sure that your family will love discovering some of Florida's top natural attractions within Seminole County.

A GLIMPSE AT SANFORD

A Florida Treasure

By the City of Sanford

As one of the oldest incorporated cities in Central Florida, founded in 1877, Sanford is home to a wealth of history and is listed on the National Register of Historic Places. Brick-lined streets, elegant storefronts and large Victorian era homes throughout the downtown area immediately remind visitors of the city's 19th century origins.

Sanford is home to the Orlando Sanford International Airport, Amtrak Auto Train Station, a regional shopping mall, a retail mega center and SunRail, a commuter rail system serving Seminole and three adjacent counties. The downtown is a vibrant commercial center with antique shops, restaurants, pubs, coffee shops and art galleries. The Saturday morning Farmers Market in historic Magnolia Square is a popular weekly fixture attracting visitors from a large area.

Picturesque First Street, the center of downtown Sanford, was revitalized to add historical elements such as a two lane brick street and traditional light posts. The City of Sanford and the Sanford Community Redevelopment Agency (CRA) has worked with their community partners, such as businesses, property owners and residents of Sanford to create the design for a new streetscape on Sanford Avenue between 1st and 6th streets.

This \$2.3 million project has redeveloped the six block area of Sanford Avenue. Sanford Avenue is also a cultural and entertainment corridor that is becoming an ideal location to attract new businesses to Sanford. The Sanford Avenue Streetscape design integrates the needs of business owners, pedestrians, cyclists, residents and visitors.

This includes the installation of an 8-foot-wide cultural pathway where there is opportunity to feature artistic elements to this area such as street sculptures and murals. The cultural pathway of the streetscape is a direct connection to Sanford's RiverWalk. This pathway also includes heritage markers featuring information on the historical role Sanford Avenue and the Georgetown neighborhood has played in Sanford's history. The city also has a facade and rehabilitation program for building owners in the downtown area to facilitate private investment in the revitalization.

These changes have transformed the city's downtown from a sleepy, historical site to a vibrant and enticing family-friendly destination. Visitors and residents can be seen seven days a week strolling the city's downtown while enjoying the shops, boutiques, restaurants and pubs. A popular event held the second Thursday of each month, called "Alive After Five," brings thousands more downtown for live music, local artists, food and craft beers. "Sanford's investment in the downtown area has set the stage for numerous events and festivals," says Sanford Mayor Jeff Triplett. Downtown Sanford is an engaging place with an authentic and eclectic flavor. Through the support of the CRA the city has created a partnership with Sanford's Amtrak Auto Train to provide free round-trip shuttle service for waiting passengers to visit and enjoy historic downtown as well as free round-trip shuttle service from the Sanford SunRail station into historic downtown (shuttle coordinates with the Sanford SunRail station schedule Monday through Friday between 10 a.m. and 3 p.m.).

WATERFRONT STYLE

Lake Monroe, a 9,406-acre expanse of shining blue water, borders the City of Sanford on the north side. On breezy days, sailboats depart the Monroe Harbor Marina and dot the lake with their white sails and bright spinnakers. Pedestrians enjoy the palm-lined RiverWalk with its gazebos and swinging benches while fishermen sit near the water's edge.

The completion of the \$11.2 million RiverWalk in 2004 was one of Sanford's biggest park improvement projects since the 1930s. The lakefront amenity features a 1.76-mile pedestrian path and the Gateway at RiverWalk, completed in 2007, a six-story residential development along the RiverWalk that includes luxurious townhomes, office space, restaurants as well as specialty retail shops. Sanford continued to expand on this unique amenity with RiverWalk Phase II, a \$4.6 million dollar project completed in 2015. The expansion of Florida's award-winning and internationally recognized RiverWalk is a dynamic city amenity built for all to enjoy. Fort Mellon Park, another waterfront feature of the city, is a showcase recreational facility with a unique and fun splash pad feature popular with residents and visitors. The park and adjacent Seminole Avenue provides additional scenic venue opportunities for large festivals and events.

Sanford's transportation network is also a major quality of life asset, whether it is Sanford International Airport with a growing number of domestic and international destinations, easy access to Interstate 4 and the 417 Expressway or the Sanford SunRail commuter rail station, it is easy to get around Sanford and travel to the Metro-Orlando area and beyond.

NEIGHBORHOODS

West Volusia

The West Volusia Regional Chamber of Commerce serves six communities in West Volusia which include DeBary, DeLand, DeLeon Springs, Deltona, Orange City and Lake Helen and seven smaller surrounding communities of Barberville, Cassadaga, Enterprise, Glenwood, Osteen, Pierson and Seville. Our West Volusia area is rich in history, with a growing community-oriented retail and manufacturing market. We welcome you to our great communities which we call home:

DeLand, known as the "Athens of Florida" is located between Orlando and Daytona Beach and bordered to the west by the historic St. Johns River. DeLand is the cultural, spiritual and educational hub of the greater West Volusia region. Home to Stetson University and the Museum of Florida Art, DeLand provides a full slate of cultural offerings including the spectacular outdoor DeLand Fall Festival of the Arts.

The City of DeBary is situated in the southwest portion of Volusia County. The community is proud to have the first Florida Sunrail Station, and the home of the restored DeBary Hall Historic Site, which is now open to the public. Nearby Gemini Springs Park offers visitors a wealth of outdoor activities centered on the twin natural springs. Although famous explorer Ponce de León did not discover the springs, legend and folklore claim that he came to Florida on a search for the mythical Fountain of Youth. The springs are now part of De Leon Springs State Park, which offers a wide variety of water-based and outdoor activities as well as the charming Old Spanish Sugar Mill Restaurant.

Deltona is located midway between Orlando and Daytona Beach along the I-4 corridor and is Volusia County's newest and fastest growing community. The area is rich in Hispanic culture that is celebrated by year round festivals. Adjacent to the Deltona Regional Library, Lyonia Preserve protects sizeable scrub habitat that is home to a growing population of gopher tortoises as well as many other Florida species of wildlife and native plants.

Lake Helen, known as the "Gem of Florida", was founded by Henry DeLand and named after his daughter. Intended as one of the prettiest and most pleasant towns in Florida, the residents are proud of the well preserved Victorian architecture and small-town atmosphere. Lake Helen is a National Register Historic District. Stately historic homes and charming churches nestled along tree-lined streets lend Lake Helen a special Southern charm.

Orange City was founded in 1874 by Dr. Seth French and incorporated in 1882.

Today the city is best known for Blue Spring State Park where manatees by the hundreds flock to the warm spring waters during the winter months. The city is proud of its small town ambiance alongside world-class opportunities while offering all the amenities necessary for today's fast-paced lifestyle.

Barberville is an unincorporated community in Volusia County. The Barberville Pioneer Settlement has been preserving the pioneer spirit for nearly forty years. Living up to the Settlement's founders aspiration, "to encourage the common man to express and experience his artistic urges and to fulfill the needs of thousands who might not otherwise be involved in the arts, and to admire the arts of their past."

Cassadaga is a small unincorporated community located in Volusia County, Florida, just north of Deltona. It is especially known for having a large number of psychics and mediums, and has consequently been named the "Psychic Capital of the World."

The community of Enterprise was founded in 1841 on the shores of Lake Monroe as a steamboat port and served as the first Volusia County seat. Today the community is a designated National Register Historic District with active involvement by members of the Enterprise Preservation Society.

Glenwood was originally called Spring Garden. A large sawmill owned by the Bond Lumber Company employed most of the town's residents. The area is now primarily residential. Glenwood Avenue, running through the heart of the community, evokes the feeling of being transported back in time with canopies of moss draped live oaks.

Osteen is an unincorporated community in the southwestern region of Volusia County. Osteen's landscape remains largely rural with a hundreds of acres of county conservation lands. As well as typically native wetlands, swamps, forests and wildlife of Florida, there are numerous camping areas and preserves such as the Hickory Bluff Preserve.

Pierson was established in 1842 and is best known for the ferns grown and exported worldwide for use in floral arrangements and other decorations. The area's ferneries have earned the community the distinction of "Fern Capital of the World."

Established in 1885, Seville was formerly known as the "Tangerine Capital of Florida" but today is better known for its ferneries and remains rural and agricultural.

Winter Park

One of the finest cities in the United States, Winter Park Florida, is considered by many to be the premier urban village in the sunshine state.

With its rich heritage, strong sense of community, vast parks system, diverse economic base, and beautiful chain of lakes, the city provides a high quality of life to both its residents and visitors alike.

Located just three miles north of Orlando in Orange County, the city is nine square miles with over 28,000 residents. Winter Park is known for its Old World charm, elegant homes, quaint bricked streets, extensive tree canopy, first-class shopping and dining experiences, world-class museums and Rollins College.

Described by some as a small New England village with a European flavor with quaint shops and scrumptious restaurants, Winter Park is as beautiful as it is unique. In addition to its town-and-gown relationship with Rollins College, the oldest private college in Florida, the city has developed significant partnerships among area businesses, schools, cultural organizations, civic groups and neighborhood associations.

Winter Park is not only known for its abundance of upscale shopping and unique restaurants, but also its historic Hannibal Square district, Winter Park Village and nationally-ranked schools which include Winter Park High School, Rollins College and Valencia Community College. With four museums, The Charles Hosmer Morse Museum of American Art, Cornell Fine Arts Museum at Rollins College, Albin Polasek Museum & Sculpture Gardens and Winter Park Historical Museum, Winter Park is a mecca for those interested in world-class art and rich cultural experiences.

One of the best ways to get acquainted with the city is to take a leisurely boat ride on the Winter Park Scenic Boat Tour, located at the east end of Morse Boulevard. This one-hour, open-air cruise will provide you with breathtaking views of our city's beautiful homes and expansive chain of lakes as you listen to a narrated history of Winter Park. You can also take a walking tour of the city by picking up a brochure at the Winter Park Historical Museum located at the corner of New York and New England avenues on the north end of the award-winning Winter Park Farmers' Market.

The Downtown Winter Park Historic District is listed on the National Register of Historic Places, the official list of the nation's most historic areas worthy of preservation. The district, which runs along Park Avenue, was deemed significant in the areas of early settlement, architecture, community planning, commerce and transportation. Eight buildings in Winter Park are also listed on the National Register of Historical Places, including the Albin Polasek Museum & Sculpture Gardens, All Saints Episcopal Church, Annie Russell

Theatre, Comstock-Harris House, Edward Hill Brewer House - 'The Palms,' Knowles Memorial Chapel at Rollins College, Winter Park Country Club Clubhouse and Woman's Club of Winter Park.

Among the city's 75 beautiful large and small parks, the main parks include Central Park, Mead Botanical Garden, Kraft Azalea Gardens,

Ward Memorial Park, Lake Baldwin Park, Shady Park, and Martin Luther King, Jr. Park. Be sure to make plans to attend the nationally recognized Winter Park Sidewalk Art Festival during the third weekend in March, the Winter Park Autumn Art Festival during the second weekend in October, the Old Fashioned 4th of July Celebration, and many other community and city-sponsored events that are held throughout the year.

We are sure you'll agree after visiting our parks, shops, restaurants, museums, historic sites and other points of interest throughout the city, that the City of Winter Park is truly a unique community with an international appeal.

BEFORE THE BIG MOVE

Six Weeks (Or More) Before Move

- Research and contact real estate agents in the area to which you are moving
- Acquire estimates from moving companies and determine out-of-pocket expenses

Four Weeks

- Obtain children's current school report cards, and check pre-registration dates and procedures for enrolling in a new school
- Collect copies of all medical records, birth certificates and veterinary records—keep in a safe, accessible place
- Inform post office, banks, credit card and insurance companies, subscription services, friends and family of your new address

Three Weeks

- Arrange for utilities, newspaper, telephone and cable services to be disconnected
- Arrange travel plans; if driving, check vehicle tires and fluids
- Make reservations for overnight stays and arrange transportation for pets and plants

Two Weeks

- Transfer bills, stocks, investments and bank accounts, as needed
- Clean out cupboards, garage, attic and any other storage place—discard unwanted items
- Pack all household items, be sure to carefully label boxes by room

One Week

- Discontinue delivery services and close out all local accounts (library cards, gym memberships, etc.)
- Clean out safety deposit box; send valuables ahead by registered mail or take them with you
- Defrost/dry refrigerators and freezers after emptying and thoroughly cleaning them out
- Arrange for final financial transactions at the bank

The Day Before

- Pack luggage to take with you, including valuables and identification cards
- Make sure pets are prepared for their journey
- Prepare for travel: if flying, print online check-in confirmation; if driving, print out directions if necessary

Loading & Moving Day

- Reconfirm delivery date with movers and provide directions to new residence
- Supervise movers to ensure belongings are handled with care
- If electricity is turned off, make sure to leave refrigerator and freezer doors open to prevent mold and mildew
- Drop keys off with the landlord and ask for a written receipt; some charge a month's rent if keys are not returned. Provide the landlord with your forwarding address for any forthcoming mail, refunds, etc.

TO RENT OR TO OWN

Where to Hang Your Hat

In addition to financial considerations, lifestyle plays an important role in the decision to purchase or rent a home. For some, the desire to lay down roots and become part of a community fulfills their “American Dream.” Others may say they would feel caged without the freedom to roam around the country at will, leaving their homes behind and starting anew, thereby making renting a home the better option for their family. Regardless of where you decide to hang your hat, the economic outlook for the housing market is looking up with values increasing at steady rates.

Recent reports by the Bureau of Labor Statistics suggest Central Florida’s economy is improving after showing the unemployment rate dropping to 5.5 percent, the lowest in six years—better than the state’s (6.2 percent) and the nation’s (6.7 percent) and not much higher than recent historical averages.

The median cost of a rental home in Orlando was \$1,200 in 2015. The average price for homebuyers experienced an 11 percent increase last year, bringing the median price from \$163,815 in August 2014 to \$182,000 12 months later.

With a solid housing market in the Greater Orlando area, now may be a good time to consider buying a house. Clearly there is no right or wrong decision when it comes to owning versus renting, but each has its advantages and disadvantages, and often the decision is based on personal values.

One of the main reasons people choose buying over renting is the opportunity to reap financial rewards. According to *Money Allocator*, making a monthly mortgage payment is like putting money in a savings account rather than giving it to a landlord. Each time a payment is made a percentage goes to equity. In addition, interest paid on a home loan can be deducted on your income taxes.

Other reasons residents purchase rather than rent include a sense of pride and accomplishment in owning a little corner of the world and the benefits of belonging to a community where people know and look out for one another.

However, there are some downsides to owning. Maintaining a home and yard can be time-consuming and costly. In addition, maintenance costs, attorney's fees, closing costs and annual property taxes can put a dent in the wallet.

Just like relatives, you can't pick your neighbors, nor can you really pick your neighborhood. Regardless of the amount of research you've put in before you make a purchase decision, neighborhoods can change over time and neighbors can change frequently. Unlike renting, buying a house is a long-term commitment. You can't just pack up and move when things are less than pleasant. So a growling dog, the rock star wannabes practicing in the garage next door or a flamboyance of flamingos living on the neighbor's lawn must be either tolerated or negotiated.

By the same token, renting has its pros and cons.

Financially, the initial investment is miniscule compared to buying a home. Most rental properties require only a deposit and the first month's rent prior to moving in. There are no property taxes involved in renting a home, condominium or apartment.

As a renter, the cost and hassle of repairing a leaky roof, ensuring the air conditioner and heating system is maintained and up-to-code and even replacing large appliances such as the refrigerator, dishwasher, stove, and washer and dryer are the responsibility of the landlord. In most cases, yard maintenance is handled by the property manager as well.

Mobility is another advantage. When work calls for you to relocate, or you find you don't like the neighborhood, it is easier to move when you don't have to wait for your property to sell.

Conversely, there are no tax credits for renters, and there is no savings or equity involved. When you pay rent, the landlord keeps it all. In some cases, the rent increases each year when the lease is renewed. Additionally, there are limitations in decorating your home. Flooring, wall color and even picture placement can all have restrictions, which are determined by the property owner.

Whether you decide to rent or own, there are obvious advantages and disadvantages. The key is to make the decision with forethought and to make the decision that best fits with your lifestyle, the needs of your family and the dreams you have for your life in Central Florida. With all of the beautiful homes available in Greater Orlando, it's sure to be a win-win as you settle in. Welcome to your new home!

EDUCATION

Central Florida offers a variety of options for parents and students to create a path that will help students reach their full educational potential. Options include charter schools, home education, private schools, public schools, exceptional student education and adult education. The Central Florida area's high-ranking schools and educational programs allow students to learn in the best environment possible.

REGISTRATION AND IMMUNIZATION

To enroll a student in a Florida public school, a few requirements must be fulfilled. Florida law specifies that children who have turned 5 years old on or before Sept. 1 of the school year are eligible for admission to public kindergarten during that school year based on rules provided by the school board.

All children age 6 and older, or who will turn 6 by Feb. 1 of the current school year, are required to attend school regularly during the entire school term. Although Florida law does not provide a specific age requirement for enrollment to public first grade, it dictates that first grade enrollment be limited to students who turn 6 on or before Sept. 1, and who have successfully completed kindergarten; and out-of-state students who turn 6 years old after Sept. 1 who meet the age requirement for public kindergarten admission from the transferring state, and who have successfully completed kindergarten.

When students turn 16, they are no longer required to attend school if they file the required formal declaration of intent to terminate school enrollment with the school district, and the declaration is signed by a parent or legal guardian.

When registering your child for school, you will need:

- Proof of age, including a certified birth certificate or other acceptable documentation
- A Florida Certificate of Immunization, Form 680 (blue card)
- Evidence of a medical exam completed no less than 12 months prior to the child's school entry date
- Official documentation that the parent(s) or guardian(s) is a legal resident(s) of the school attendance area

If a student is transferring from an out-of-state public or nonpublic school, the parents must provide the following data to the school district prior to admission:

- Official documentation that the parent(s) or guardian(s) was a legal resident of the state in which the child was previously enrolled in school
- An official letter or transcript from a proper school authority that shows record of attendance, academic information, and grade placement of the student
- Evidence of immunization against communicable diseases
- Evidence of a medical examination completed within the last 12 months

A valid Florida Certificate of Immunization needs to be completed by a Florida physician or a Florida county health department. County health departments generally offer free immunizations to those unable to afford them through a private physician. Exemptions may be provided for medical or religious reasons.

The immunizations required are at least:

- Four doses of diphtheria, tetanus, pertussis (DTP or DTaP) vaccine
- Three doses of polio (IPV or OPV) vaccine
- Two doses of measles, mumps and rubella (MMR) vaccine
- Two doses of hepatitis B vaccine
- Haemophilus influenza type b (HIB) vaccine (for Pre-K entry)
- One dose of varicella (chickenpox) vaccine for Pre-K and grade six to 12. Two doses varicella vaccine for kindergarten to fifth grade. Varicella vaccine is not required for children with a history of varicella disease documented by a health care provider.

Note: Before entering seventh grade, your child must get a tetanus, diphtheria and pertussis (Tdap) vaccine.

FLORIDA'S K-12 STATEWIDE ASSESSMENT PROGRAM

Since the spring of 2015, the Florida Department of Education has been using new Florida Standards Assessments (FSA) to replace the FCAT 2.0. The FSA in English Language Arts and in Mathematics serve to measure the progress and educational gains in students. Students in grades 5 and 8 will also take the Statewide Science Assessment.

The Florida End-of-Course (EOC) Assessments are part of Florida's Next Generation Sunshine State Standards (NGSSS) Strategic Plan for the purpose of increasing student achievement and improving college and career readiness. EOC Assessments are computer-based, criterion-referenced assessments that measure the NGSSS for specific courses, as outlined in their course descriptions. These assessments are offered for Biology 1, Civics and U.S. History.

To learn more about Florida's assessment programs, please visit www.fldoe.org/accountability/assessments. To view the information organized by subject and grade level, visit www.cpalms.org.

HOME EDUCATION

Home schooling is a parent-directed education program that allows a child to learn at their own pace in the comfort of their home. Parents who home-school must comply with all the state statutes and regulations. Florida Statue 1002.41 requires that the school district superintendent is informed in writing that a child will be home-schooled 30 days prior to the intended start date. A parent must also keep a portfolio of records and materials, and provide an annual educational evaluation.

For more information, visit the website of the Florida Parent-Educators Association, www.fpea.com or call 321-872-6600.

MONTESSORI

Central Florida offers a selection of schools that provide Montessori education. This approach to learning encourages independence and freedom of choice within approved limits. The Montessori method moves alongside a child's natural development, with regards to social and psychological growth. Children are offered a hands-on style to education, and teachers must be specially trained in Montessori programs.

CHARTER SCHOOLS

Charter schools have been an option in Florida's public education for more than a decade. These schools are publicly funded and were created to give parents and students more education choices. Some charter schools include themed learning approaches focusing on areas such as arts, sciences or technologies. Other charter schools provide services to special populations, such as students at risk of academic failure or students with disabilities.

If you would like to learn more about the benefits of a charter school, please email charterschools@fldoe.org.

CHOICES IN HIGHER EDUCATION

There are a variety of postsecondary educational institutions located in the Greater Orlando area. The following gives you a more detailed look at each of them:

Agricultural, Technical and Specialized Colleges

Colleges focus on preparing students for specific careers in fields such as business, computer technology, cosmetology and seminary. They offer associate degrees, technical diplomas, apprenticeships and certificate programs. Some of these colleges even offer bachelor's, master's and doctoral degrees in certain vocational programs.

Private Colleges and Universities

Private colleges and universities tend to be more expensive than public institutions due to their reliance on tuition, fees, endowments and other private sources for funding. Unlike public colleges and universities, private institutions are smaller and may offer a more personalized education. These institutions also have selective criteria for their admissions.

Public/State Colleges and Universities

Public/state colleges and universities are less expensive, particularly for in-state residents, than private institutions. This is because they get most of their funding from the state government. Similar to private institutions, most have selective criteria for their admissions. Public institutions tend to provide more courses than private colleges and universities due to their larger size. In 2009, the Florida legislature changed the Florida Community College System to the Florida College System. Currently, 16 colleges under this system changed their names to incorporate the word "state." These former community colleges now offer bachelor's degrees.

Extended Day Enrichment Program

The Extended Day Enrichment program offers care and supervision before and after school while providing a variety of activities for children. The program operated by Orange County Public Schools is available at most elementary schools, while some are operated by other community entities. For middle schools, before and after school programs are provided through community partnerships. The program is available every day that school is in regular session from 7 a.m. to 6 p.m., during teacher workdays, holidays and summer breaks. An annual registration fee of \$10 is required in addition to a standard weekly fee. To assist families, scholarships are also available. For additional information, call 407-317-3383 or contact your child's school.

OPTIONAL PROGRAMS FOR STUDENTS

Advanced International Certificate of Education Program (AICE)

The AICE Program is a rigorous college preparatory curriculum and examination system, sponsored by the University of Cambridge International Examinations. The program emphasizes independent research, initiative and creativity. To qualify for an AICE diploma, students must earn six credits by passing a combination of examinations in several subject areas. Florida's public colleges and universities provide college credit for successfully passed exams, and students can earn up to 45 credits.

Advanced Placement (AP)

The College Board's AP program provides advanced courses to high school students with an opportunity to earn college credit after the completion of each course. AP classes are beneficial to students because they help broaden their academic skills, prepare them for college-level courses and give them an upper hand in the college admission process.

Dual Enrollment

This acceleration program allows students to simultaneously earn high school credit and credit toward a career certificate, or an associate or baccalaureate degree. Another form of dual enrollment is early admissions, which permits students to enroll full time in college or career courses at a postsecondary institution, thus obtaining high school and college or career credits for completed courses.

Gifted Programs

These programs are provided to students identified as gifted—those who appear to be capable of high academic performance. Each district and school has their own requirements and rules for gifted programs. Some services provided to gifted students include accelerated instruction, such as independent study and enrichment instruction.

International Baccalaureate (IB)

The IB academic programs encourage international mindedness and provide quality education. The Primary Years Programme focuses on development inside and outside the classroom. The Middle Years Programme offers an academic challenge while providing life skills. The Diploma Programme consists of a rigorous two-year curriculum, where graduates receive an IB diploma and are often given advanced placement at colleges and universities worldwide. The IB Career-related Programme is new, and designed specially for students who want to engage in career-related learning.

Junior Reserve Officer Training Corps (JROTC)

The JROTC program is designed to teach high school students the value of citizen leadership, teamwork and self-discipline. The program also allows students to become more familiar with military services. All three counties offer JROTC programs for the Air Force, Army, Marines or Navy military branches.

Extended Day Program

The Osceola County Extended Day Program provides care for students before and after school in an environment that offers educational and social enrichment. The program is offered for students in kindergarten through fifth grade, and is available at several elementary schools throughout the county. Program hours are from 6:30 a.m. to 6 p.m. and children can also be enrolled in summer camps. There is a standard weekly fee that varies based on whether your child needs morning or afternoon care, as well as how many children per family are in the program. For additional information, call 407-343-8780 or contact your child's school.

Home Education

For information on home schooling in Osceola County, contact the Florida Parent-Educators Association at 877-275-3732 or visit www.fpea.com.

Extended Day Child Care Program

Seminole County Public Schools offer the Extended Day Child Care Program at all elementary schools. The program's mission is to provide a high-quality and family-friendly daycare service for elementary children in a safe, caring, fun and well-supervised environment. The program's hours are from 7 a.m. to 6 p.m., and some elementary schools offer summer camp. There is an annual registration fee of \$25, in addition to weekly fees. Seminole County also provides enrichment classes after school in a variety of courses, each with a 10-week session. For more information on the extended day and enrichment programs, visit www.seminoleextendedday.com or contact your child's school.

Extended Day Enrichment Program

The Extended Day Enrichment Program (EDEP) is offered at 40 Volusia County Elementary Schools. The EDEP offers a safe environment with supervised after-school enrichment activities including, but not limited to, homework monitoring, tutoring, community service projects, arts and crafts, music, drama, outside recreational activities and much more! Currently, almost 3800 students attend Volusia County Schools EDEP. Each program also uses an after school literacy program, KidzLit, to help build students' comprehension and vocabulary development. The programs begin at the end of each school day and close at 5:45 p.m. Some sites have morning programs, too. Contact the Site Facilitator at your child's school to check for availability.

PROGRAMS FOR LEARNING DIFFERENCES

The primary goal of programs for learning differences is to provide a free, appropriate public education (FAPE) in the least restrictive environment (LRE). The educational placement of a student is determined by an IEP committee and is based on the needs of the student.

Volusia County provides a continuum of placement options for students with mild, moderate and severe exceptionalities.

Students with mild/moderate exceptionalities are typically educated in their neighborhood school through the following delivery models: consultations, support facilitation, co-teach, small group, and separate class.

The students most commonly served in their neighborhood schools are students with learning disabilities, mild emotional /behavioral disabilities, mild mental handicaps and autism spectrum disorders.

HEALTH CARE

Most people consider the health and safety of their family a top priority, which means knowing where to go for medical needs is a must. The Greater Orlando region is filled with top-rated health care facilities and medical professionals who are prepared and equipped to take care of their patients, regardless of circumstances. This section will get you started on finding the right medical care in your area.

Orange, Osceola, Seminole and West Volusia counties are home to numerous hospitals covering a wide array of medical specialties. Florida Hospital has been named the No. 1 hospital in Florida for the past two years by *U.S. News and World Report* and is the top health care employer in the area. Central Florida is also home to Orlando Health, the region's second largest employer in health care. As part of Orlando Health, the UF Health Cancer Center – Orlando is recognized as a Cancer Center of Excellence, and adds to Orlando's prestigious health care services.

Many health care facilities in Central Florida have implemented new procedures or acquired new equipment to keep up with the ever-evolving technological advancements in the field of medicine. As of 2015, hospitals in Orlando have employed several devices that have improved health care, including the AccuVein®, CoreValve® System and PRECICE® Limb Lengthening Technology.

The Greater Orlando region is becoming a center for medical tourism due to the technological advancements and the high level of care the area's physicians provide for patients. Medical tourism refers to when patients from out of state or out of the country travel to a particular area because they may not have access to the type of health care they require or can receive the same care but for a smaller cost. The Orlando area is also close to other medical tourism hubs in Florida, such as Jacksonville and Gainesville.

Additionally, there are medical services available in Central Florida that go beyond typical health care needs. Last year, Aspire Health Partners merged Lakeside Behavioral Healthcare, Seminole Behavioral Healthcare and The Center for Drug-Free Living to provide programs to assist with social and psychological issues in children and adults. Select Specialty Hospital has two campuses in Orlando for patients with critical and complex medical conditions.

HEALTH CARE

“Many health care facilities in Central Florida have implemented new procedures or acquired new equipment to keep up with the ever-evolving technological advancements in the field of medicine.”

The Lake Nona® Medical City is one of the most notable systems in Central Florida and is currently working on expanding the area. Medical City is home to the Sanford Burnham Prebys Medical Discovery Institute, the University of Central Florida Health Sciences Campus, Nemours Children's Hospital, University of Florida Academic and Research Center, Burnett School of Biomedical Sciences, and the Orlando (Veterans Affairs) VA Medical Center.

Furthermore, health care facilities in Central Florida are opening or expanding to meet the needs of the area's growing population. Nemours Children's Health System—which includes a hospital with a full emergency department, three specialty care clinics, five pediatric urgent care centers and nine pediatric primary care locations—offers pediatric care that had not previously been available in Central Florida. To better serve the vast military and veteran population in the area, Orlando (VA) Medical Center includes a multispecialty clinic, an inpatient hospital and a community living center, among other services.

The Greater Orlando area offers great health care services and an excellent selection of choices when it comes to providers and facilities. Thanks to the multitude of hospitals, clinics, and surgery and imaging centers, patients can find what they seek without settling for less than satisfactory treatment. Whatever your needs, Central Florida can meet them with quality facilities and care, ensuring that you and your family are always in good hands.

GREATER ORLANDO: A GREAT PLACE TO WORK

Central Florida is leading the way out of the Great Recession. Some of the highest paying jobs will be found in the health care industry, simulation industry and technology industry and none of these sectors show signs of slowing down in the years to come.

breaking employment records, the hospitality and leisure industry employs more than 232,000 Central Floridians. While many of these jobs are lower paying jobs, they are with outstanding companies, such as Walt Disney Corporation and Universal Studios, which provide job seekers with solid entry level training. In addition, all of these companies have many professional level positions in accounting, marketing, sales, procurement, IT, website development, medical and management. With record tourism in Central Florida with 60 million visitors last year, this sector is definitely one to keep your eye on in 2016.

One constant through the recession was the need for skilled nurses, physical therapists, doctors and home health care workers. This has not changed. With the Orlando region growing and new health care facilities opening in 2016, this job sector remains at an all-time high. Expansion of Orlando Health and Florida Hospital lead the way, as well as the new Veterans Affairs Hospital that opened last year and Nemours Children's Hospital, which opened its new hospital in Lake Nona Medical City two years ago.

For Central Florida, the professional services sector is a booming source of employment. Within this sector, it is the higher paying professional jobs that are experiencing significant job growth. Combined, almost 190,000 people are employed in this sector. Adding to this number is Orlando's ever-growing technology sector.

Orlando is a strong leader in military and medical simulation (both private and government). With the addition of Creative Village, the growth of the downtown technology sector, and numerous incubators, Orlando is poised to lead not only the state, but the nation as a whole in technology job growth.

The construction sector showed significant gains in the past few years. Over 9,000 new jobs were created in 2015 in this sector and employers are indicating that they will continue to hire at a rapid pace. According to orlandojobs.com, many of the pre-Recession workers in this career path found other careers or moved out of the area. In 2007, more than 85,000 Central Floridians worked in construction. As of January 2015, that number had rebounded back to 57,000 construction workers.

Greater Orlando SHRM Chapter #0050
PO Box2527
Orlando, FL 32802-2527

Welcome to Central Florida from the Greater Orlando Society of Human Resources Management (GOSHRM), a local chapter of the Society for Human Resource Management (SHRM) located in Washington DC!

GOSHRM serves more than 700 human resource professionals in Central Florida encompassing Orange and Seminole and parts of Osceola counties. As one of the largest chapters in the state of Florida, GOSHRM has proudly served the Central Florida area for more than 50 years.

GOSHRM's mission is to advance and serve the human resources profession by providing education, networking and resources for members and the community. We provide continuous opportunities for collaboration, professional leadership, development through our SHRM certification courses, and multiple volunteer opportunities.

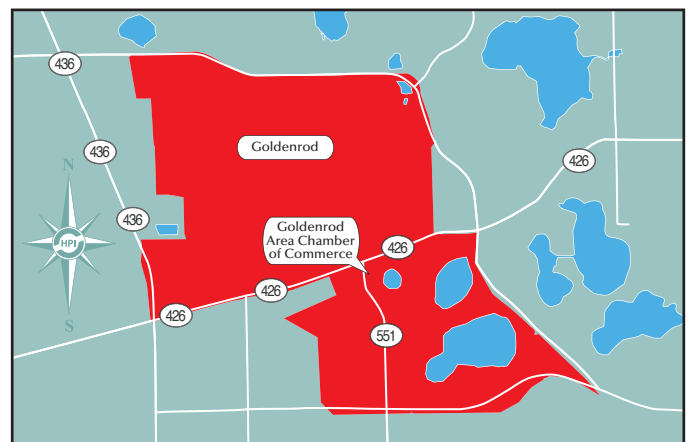

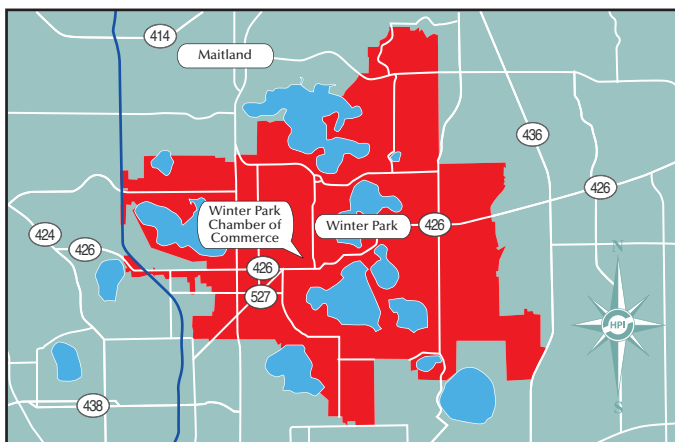

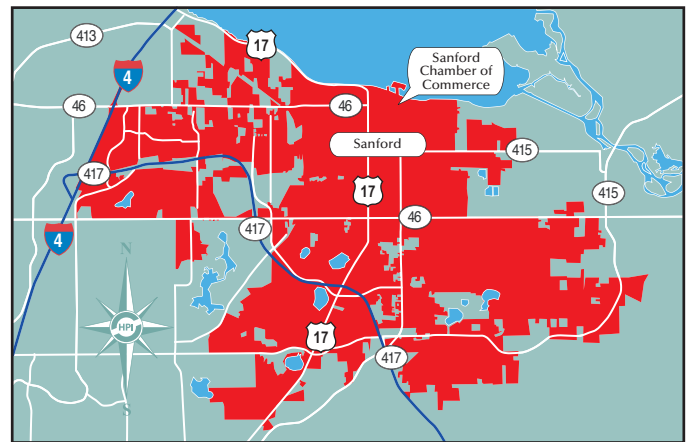

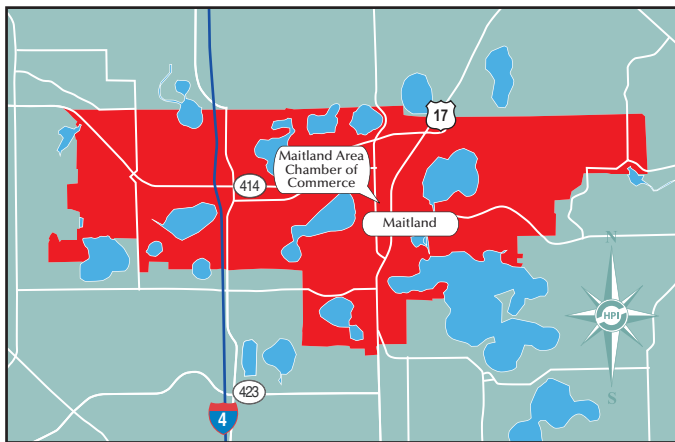

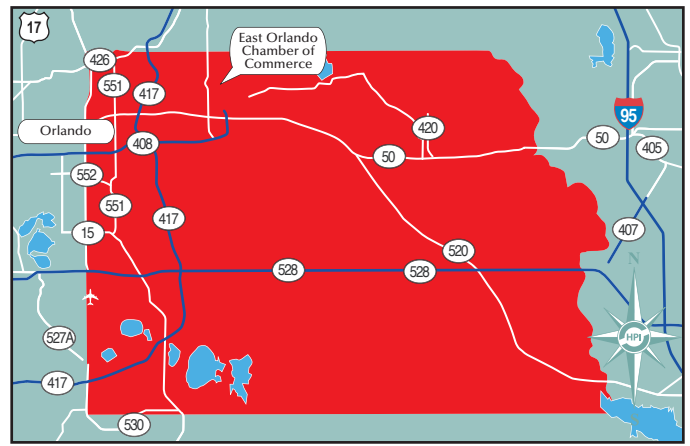

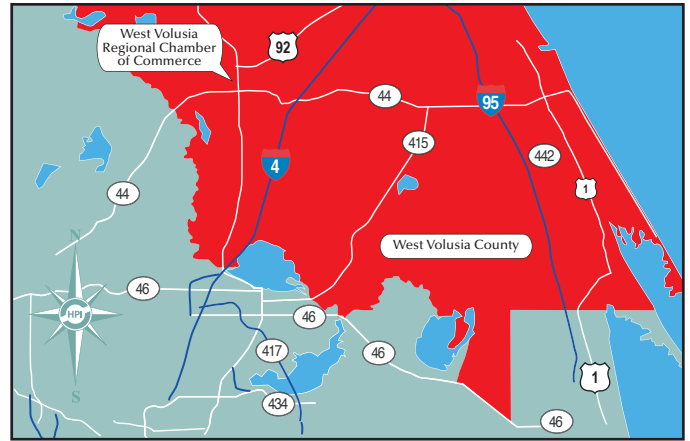

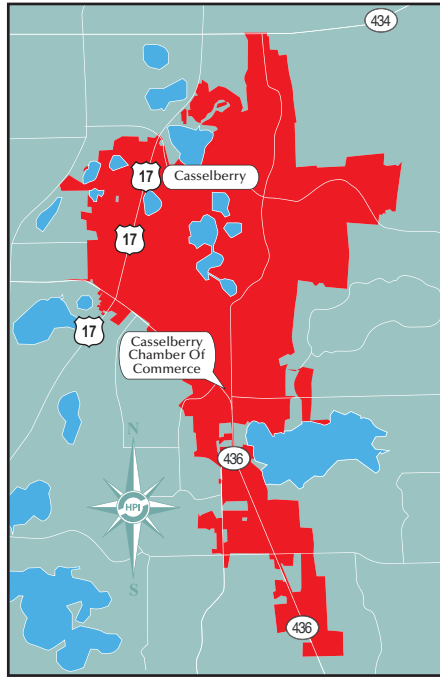

On behalf of our Board and all of our members, I would like to extend you and your family a sunny welcome to Central Florida! All visitors are invited to attend one of our monthly meetings at the GOSHRM member rate. Please visit our website for information on our chapter's next meeting dates, networking events and legal half day seminar at www.GOSHRM.org.

At GOSHRM, we Get Involved. Get Noticed. Get Ahead.

All My Best,

Kim Ouellette, MS HRDA
2016 President, GOSHRM

daily. The Red Line trolley services the north and south route for International Drive with arrivals every 20 minutes. The Green Line trolley services the route from Major Boulevard business district then along Universal Boulevard towards South International Drive with arrivals every 30 minutes. Trolley transfers between the Red and Green lines are free with a transfer coupon from the driver or with the Unlimited Ride Pass.

LYNX

www.golynx.com

LYNX is a public transportation system that provides transit service for Orange, Osceola and Seminole counties. The LYNX bus has 71 local bus routes daily. Designated bus stops are identified by signs. For more information on LYNX bus routes and schedules, visit their website.

LYMMO is a free bus service that provides public transportation in downtown Orlando's business, entertainment and shopping districts. The bus operates every 5 minutes during office hours and every 10 minutes in the evenings.

ACCESS LYNX provides door-to-door transportation for people who are unable to use regular bus services due to disabilities or other limitations. For more information and to determine eligibility, call 407-423-8747.

FastLink is public transportation available from Monday to Friday for morning and afternoon commuters designed to provide reduced stops for a quicker trip.

FastLink 441 travels along Orange Blossom Trail (OBT) between Osceola Square Mall and LYNX Central Station (LCS) in downtown Orlando with stops at OBT, Holden Avenue, Florida Mall SuperStop, Central Florida Parkway (near Costco), and Main

Street and Vine Street. FastLink 441's 53 minute trip leaves LCS every 30 minutes from 6:30 a.m. to 7:30 a.m. and 4:00 p.m. to 5:00 p.m. The 50 minute trip leaves from Osceola Square Mall every 30 minutes from 5:25 a.m. to 6:25 a.m. and 4:55 p.m. to 5:55 p.m.

FastLink 17-92 travels along U.S. 17-92 between Seminole Center and LCS with stops at Florida Hospital, Webster Avenue and Denning Drive, Fernwood Boulevard and Oxford Road, and U.S. 17-92 and SR 434. Morning trips operate from Seminole Centre at 6:00 a.m. (46 minutes), 6:30 a.m. (55 minutes) and 7:00 a.m. (55 minutes). Afternoon trips depart from LCS every 45 minutes from 4:15 p.m. to 5:45 p.m.

NeighborLink (NL) is a flex-service that provides local transportation for residents living in less populated areas. Residents must call 407-244-0808 at least two hours in advance to schedule a pick up. The NL transports within the designated area or to a LYNX local bus stop and back if needed.

VanPool provides van transportation for a group of people who live and work near one another or have similar daily work schedules and commute to work. This program is aimed to help reduce stress and the cost of work or school commutes. The route, schedule and pick-up/drop-off locations are determined by the driver in cooperation with other VanPool members. For more information, call 407-843-7665.

KnightLYNX provides a safe and reliable public transportation option on and near the University of Central Florida (UCF) campus and downtown Orlando. This is a free service for UCF students with a campus ID while other passengers pay regular fare. For more information on KnightLYNX bus routes and schedules, go to www.golynx.com/riding-lynx/knight-lynx.stml.

AERONAUTICAL

Central Florida is one of the top tourist destinations in the world and relies on the region's airports as its gateway. The Orlando International Airport (MCO), Sanford International Airport (SFB) and the Kissimmee Gateway Airport (ISM) are the region's main airports, and are critical to Central Florida's economy.

Orlando International Airport (MCO) is a major international airport located in Orlando six miles southeast of the central business district. It provides 33 non-stop services to international destinations and 78 non-stop services to domestic destinations. The airport operates 24 hours daily and provides amenities such as free wireless internet access in all public areas and additional kiosks that offer internet connections. Orlando is the largest car rental market with ten major car rental companies located on site. The airport also offers parking options such as the free cell phone lot, economy outdoor parking, garage parking and more. Hundreds of shops and restaurants are available in the Main Terminal, which is accessible by all passengers and the general public. A hotel is also located inside the East Hall of the Main Terminal. For more information, visit www.orlandoairports.net.

Orlando Executive Airport (ORL) is Central Florida's first commercial airfield with expanded services, updated facilities and modernized equipment. It is recognized in the state and the nation as the area's finest general aviation facility. The airport provides 24 hour service with air traffic control through two fixed base operators, Sheltair Aviation (SAS) and Showalter Flying Service (SFS). For more information, visit www.orlandoairports.net/orl.

Kissimmee Gateway Airport (ISM) is located near Orlando, about eight miles from Walt Disney World and ten miles from the Orange County Convention Center. This airport is owned and operated by the City of Kissimmee where the air traffic control tower operates from 7 a.m. to 10 p.m. every day. Flight training schools, hangars and recreational activities such as the historic Warbird Museum with T-6 Warbird adventure flights, P-15 Mustang pilot training and an 18-hole golf course are available at the airport. For more information, visit www.kissimmeeairport.com.

Sanford International Airport (SFB) is approximately 2,000 acres located within the boundaries of the City of Sanford, 18 miles northeast of Orlando. SFB provides customers with state-of-the-art facilities and convenient highway access to Florida's renowned

beaches and Orlando area attractions. The Sanford Airport Authority operates, maintains and develops SFB and the airport's facilities. For more information, visit www.orlandosanfordairport.com.
