About This Guide

Welcome to the *2025 Greater Orlando Healthcare Guide™* (OHCG), the most comprehensive healthcare reference and referral directory in the region. This one-of-a-kind guide will be your go-to resource for locating healthcare providers in Central Florida. We are proud to present

this publication in partnership with the Physicians Society of Central Florida (PSCF). For ease of use, OHCG identifies PSCF members as “PSCF Active” with an icon, and the current PSCF Membership Directory content can be found in our editorial section starting on page 4.

Within the pages of this book, you will also find articles dedicated to keeping the medical community informed about advances in medicine as well as trending topics.

The healthcare industry is a major contributor to the success of the area’s economy. On page 14, we discuss how current expansions of local healthcare facilities are beneficial for the vitality of the growing Central Florida community.

This region also continues to grow as a hot spot for medical tourism, and on page 16 we delve into how patients travel from near and far to receive treatment from Central Florida’s world-renowned physicians, hospitals and healthcare facilities.

As we do in every issue, we have included information on continuing education to keep your practice up to date. That information begins on page 18.

Our Green Pages™ section is an easy-to-use, comprehensive directory of all the healthcare providers in Orange, Osceola and Seminole counties, and begins on page 24. The Green Pages include alphabetical listings on all area physicians with references to page numbers as well as listings of physicians by specialty. Also included are area hospitals and other ancillary healthcare providers and services. If available, the listings include National Provider Identifier (NPI) numbers for further convenience.

Our goal is to present the most accurate and up-to-date information in our publication. Our Data Specialists have researched and verified the listings through October 2024. However, if your listing needs to be corrected, please complete the form on page 266 and mail or fax the form back to us. Please feel free to submit changes on our website at www.heritagepublishinginc.com/update-listing.

Finally, we encourage you to support our exceptional advertisers. Without their continued participation, we would not be able to produce this vital publication. As always, we deeply appreciate their partnership.

Dear Current & Future PSCF Members,

Thank you for your interest in the Physicians Society of Central Florida (PSCF). Our society proudly represents physicians in Orange, Osceola, Seminole, Lake, and Sumter counties. We want you to know that your medical society is dedicated to supporting you and continuously striving to enhance the practice of medicine in our community, benefiting both you and your patients.

Here are some ways in which PSCF membership benefits you and your community:

- **Advocacy:** The PSCF engages in local, grassroots advocacy by building strong relationships with our local representatives, ensuring that your patients' needs and pro-medicine legislation are prioritized. We also collaborate with the FMA and AMA, sending local physicians to advocate for the interests of our Central Florida community.
- **Community Engagement:** The PSCF offers scholarship programs for local high school seniors pursuing careers in medicine and the sciences, as well as for local medical students. Our mentorship program connects local physicians with medical students, providing encouragement, advice, and support. Additionally, the PSCF Foundation hosts an annual Gala to support community organizations and clinics that contribute to a healthier and better community.
- **Education:** The PSCF provides timely educational programs and webinars to address new regulations and issues that may impact your practice. We offer CME programs annually to assist with licensure renewal requirements. Each year, we also host a poster competition for medical students and a research competition for local residents.
- **Networking:** We organize numerous social events throughout the year at local venues and restaurants, allowing our members to reconnect and forge new relationships.
- **Wellness:** The PSCF Foundation offers a Physician Wellness Program for those physicians seeking self-improvement. Our team of counselors provides coaching and counseling services in a completely confidential manner, without creating an electronic medical record. The first four sessions are free for members.

We appreciate your dedication to enhancing the practice of medicine in our local community. Together, we are stronger and can achieve more for our patients and fellow physicians.

Thank you for your commitment to our profession.

Sincerely,

Ademola Adewale, M.D.

The history of the Physicians Society of Central Florida

The Orange County Medical Society

The Orange County Medical Society was founded in 1906 with Dr. J.D. Rush as the first President. The organization's meeting place could be found at the home of Dr. J.S. McEwan.

The Seminole County Medical Society

The Seminole County Medical Society was founded in 1927. The first meeting was held in Sanford, FL.

Unification of the OCMS & SCMS

In September of 2019 the Orange County Medical Society and Seminole County Medical Society announced their unification creating a singular physician organization in Central Florida, the Physicians Society of Central Florida (PSCF) that represents the interests of physicians practicing in Orange, Osceola, and Seminole Counties.

Unification of the PSCF & LSMS

In 2022, the PSCF and Lake-Sumter Medical Society (LSMS) merged, expanding the PSCF's reach to include physicians in Lake and Sumter counties as well.

While the name of the associations have changed, the mission of the organization remains to promote access to quality medicine, a competitive marketplace to promote quality and lower costs, and to advance the practice of medicine in our community. The organizations have also merged their charitable efforts under the Physicians Society of Central Florida Foundation and have expanded their Political Action Committee to include a focus on candidates for office throughout the region.

Member Benefits

CME Opportunities

The PSCF provides numerous free CME options for its members throughout the year such as our Annual Resident Research Competition and end of the year CME program that includes Prevention of Medical Errors, Domestic Violence, Controlled Substance Prescribing, and more.

Physician Wellness Program

The Lifebridge Physician Wellness program addresses physician burnout by providing up to 4 free counseling/coaching sessions each year with the programs certified counselors. The program is completely confidential and no health record is created.

Advocacy

The PSCF PAC is committed to supporting candidates that embrace the sanctity of the physician-patient relationship and will advance a pro-physician and pro-medicine agenda in Tallahassee. In addition, the PSCF sends delegates each year to the FMA Annual Meeting to help shape future policy in the state.

Meetings & Events

Come out to network, enjoy great food, and hear from interesting speakers. From member socials, research competitions, our annual Gala, and our Annual Meeting, there is something for everyone. You can visit pscfl.org/events to register and see our calendar of events.

Member Benefits

Health Insurance

The PSCF offers two Health Insurance Programs for its members that provide transparency, cost containment tools, affordable options for the physician, their staff, and their families. There's also potential to share profits, save money, and offset future rate increases.

Career Center

The PSCF Career Center gives members access to the top medical job board in the country. Members can post job openings at a discounted rate. You can also share your CV, review current job opportunities, and utilize the CV Review tool.

Mentorship Program

The PSCF Mentorship Program is a source of encouragement, advice, and support for local medical students.

The PSCF will match physician mentors with local medical students and the pairs decide how often they wish to meet throughout the year.

Members have reported much personal satisfaction through serving as a mentor.

Poster & Research Competitions

The PSCF hosts medical student poster competitions and resident research competitions each year as a way for the next generation of physicians to share some of the exciting cases and work they've been focused on with the local physician community.

Healthcare's Economic Impact in Central Florida

While tourism is no doubt a driving force for the Central Florida economy, the region is also home to a thriving healthcare industry that strengthens the growing community. The hospitals and healthcare providers here are a major contributor to the economic development and job growth in Central Florida. As we take a look at the expansion of healthcare facilities in operation and new healthcare facilities being built, we see the overall impact of the healthcare industry is directly linked to a successful economy in the area.

Healthcare Top Employers

The healthcare industry is a major employer for the region. Hospitals and healthcare organizations are among the top 50 private sector employers in the Orlando

metropolitan statistical area, including AdventHealth at No. 2 with 37,672 employees, Orlando Health at No. 4 with 24,978 employees, HCA Healthcare at No. 11 with 4,831 employees, Nemours at No. 23 with 2,300 employees and Florida Blue at No. 49 with 600 employees. According to the U.S. Bureau of Labor Statistics, more than 40,000 new jobs in home and healthcare services are projected to be created by 2033.

Higher Education in Healthcare

Central Florida is home to multiple colleges and universities that offer programs in various areas of the life sciences, including the University of Central Florida College of Medicine, College of Nursing, College of Health Professions and Sciences, as well as Valencia College, Seminole State College of Florida and Keiser University. This gives healthcare companies in Central Florida a large pool of talent to hire from.

Central Florida's first osteopathic medical school, the Orlando College of Osteopathic Medicine, opened in March 2024 and is expected to have a major economic impact. According to an independent study by Tripp Umbach, once the proposed school is fully operational in 2028, it will have an economic impact of \$46.4 million and create more than 345 jobs. In addition to operational economic impact, by 2030 the economic impact of the college will grow to \$80.4 million. By 2045, it is estimated that the college's total economic impact will be more than \$1.7 billion, support over 9,000 jobs and contribute more than \$86 million to state and local governments.

Lake Nona Medical City

Orlando's Lake Nona Medical City is a premier destination for medical care, research and education. The 650-acre health and life sciences park is home to the UCF Lake Nona Medical Center, a \$175

million teaching hospital that generated an estimated 350 new jobs when it opened in 2021. Also located in the medical city are the UCF College of Medicine, UCF Lake Nona Cancer Center, University of Florida Research and Academic Center, University of Florida College of Pharmacy Orlando Campus, Veterans Affairs Medical Center and Nemours Children's Hospital. Lake Nona is also home to the GuideWell Innovation Center, a hub for healthcare startups and entrepreneurs. AdventHealth has started building a new hospital in Lake Nona that is expected to open in 2026.

Over the next decade, experts estimate that the medical city will create 30,000 jobs and have a \$7.6 billion impact on the Central Florida economy.

AdventHealth

AdventHealth is deeply committed to serving the Central Florida community and has a local financial impact of more than \$1 billion each year. The health system and its employees are responsible for nearly 20 percent of Central Florida's economy, according to AdventHealth. Additionally, AdventHealth employs 3,500-plus staff physicians.

The health system has begun work on a new 10-story, 80-bed hospital located in Lake Nona. The hospital plans to eventually expand the number of beds to 320. The new state-of-the-art hospital will feature an incisionless surgical suite, with an emphasis on focused-energy treatments. These leading-edge techniques include using ultrasound to destroy tumors and to stop tremors in patients with Parkinson's disease.

To better serve Orange County residents, AdventHealth has recently opened its Millenia ER. The approximately 19,000-square-foot facility has 24 private patient rooms (including two pediatric-friendly rooms to make ER visits less stressful for young patients); respiratory therapy; diagnostic imaging, including CT scans, X-ray and ultrasound; and a full-service laboratory. "We are pleased to add this ER to our expanding network of care across Central Florida," Kari Vargas, CEO of AdventHealth's northwest market said in a news release. "This region continues to grow, and we are growing along with the community. This addition will help us continue to provide emergency care in a setting that's close to home." The opening of the ER brings more than 60 high-paying jobs to the area. "The presence of AdventHealth in our community will not only offer residents a healthcare provider to be proud of, but also bring good high-paying healthcare jobs to our district," said City of Orlando Commissioner Bakari Burns in a press release.

Orlando Health

With a mission to improve the health and quality of life for the individuals and communities it serves, Orlando Health provided more than \$1.3 billion in total impact to the Central Florida community in the form of charity care, community benefit programs and services, and community building activities in 2023. The health system employs more than 29,000 team members, plus 1,500 employed physicians. The not-for-profit healthcare organization also has \$9.6 billion of assets under management.

AdventHealth Lake Nona rendering, photo courtesy of AdventHealth

Three Orlando Health facilities have been selected by Modern Healthcare as the 2024 Best Places to Work in Healthcare: Orlando Health South Seminole Hospital, Orlando Health St. Cloud Hospital and Orlando Health Jewett Orthopedic Institute. "We understand at Orlando Health that to provide the best care for our patients, we need to create a culture to attract and retain the best physicians and team members," Orlando Health Assistant Vice President Colleen Harper said in a news release.

Residents in Seminole County will soon have more access to comprehensive acute healthcare with the new Orlando Health Lake Mary Hospital. Expected to open in early 2025, the hospital will have 124 beds in one six-story tower and the ability to expand to up to 240 beds in the five-story tower.

The new hospital will offer labor and delivery services, a neonatal intensive care unit, six state-of-the-art operating rooms, three catheterization labs with a dedicated interventional radiology and vascular lab, comprehensive cardiovascular care, 16 ICU beds, an observation unit and outpatient Scripts Pharmacy. The new Orlando Health Lake Mary Hospital will enhance the existing emergency room and medical pavilion services located on the Lake Mary campus.

A Destination for Healthcare: Medical Tourism in Orlando and Central Florida

Photo courtesy of Nemours Children's Hospital Florida

Many travelers flock to Orlando and Central Florida to see the famous Mickey Mouse, however some visitors are traveling here to see someone else: our world-class physicians and healthcare providers. The Orlando area offers some of the best healthcare in the world for those visiting from out of state or from across the world. This region's top-rated hospitals, medical centers and esteemed medical professionals have made Central Florida a hub for medical tourism.

Orlando Health

Nationally recognized for its high-performing community hospitals and specialty hospitals, the Orlando Health healthcare system has more than 20,000 international patients each year. In one particular case, a patient with lymphedema traveled 2,500 miles from Southern California to UF Health Cancer

Center-Orlando Health to undergo a vascular lymph node transfer (VLNT). The procedure involves removing healthy lymph nodes from one part of the body and transplanting them into the limb affected by lymphedema. Only a few places offer this type of operation for lymphedema, leading to more and more patients traveling to Orlando for care.

Despite the uncertainty surrounding COVID-19, a family traveled to Arnold Palmer Hospital for Children from Romania for their child to have brain surgery in 2022. They chose to come to Orlando after doctors in Romania told them the location of their son's brain tumor was too difficult to access. Dr. Samer Elbabaa is the pediatric neurosurgeon who operated on the young boy.

Since opening in 2016, the Marjorie and Leonard Williams Center for Proton Therapy at Orlando Health UF Health Cancer Center has drawn patients from all over Florida, and even from as far as the Middle East, Canada and Asia. The proton therapy

center treats a wide range of patients with cancers of the brain, spine, prostate, breast, thorax and lungs, head and neck, as well as a large group of pediatric patients. Treatments have involved several clinical protocols and enrolled patients in a multi-institutional proton treatment registry. "We offer an innovative multi-disciplinary approach to cancer treatment that is an important factor in the growth of our proton therapy program," Naren Ramakrishna, MD, director of the pediatric proton therapy and adult proton therapy programs at the Orlando Health Cancer Institute, said in a news release. "Patients are coming to us from near and far because of that philosophy and the unique benefits proton therapy has to offer."

AdventHealth

AdventHealth Orlando is one of the leading healthcare systems in the United States and specializes as an international treatment center in cancer care, cardiology, neurology, orthopaedics and pediatrics.

Marjorie and Leonard Williams Center for Proton Therapy, photo courtesy of Orlando Health

The hospital is committed to providing the smoothest process for out-of-town and international patients. The destination health team at AdventHealth provides personalized care for its international patients. Its intake engagement coordinators assist patients with arranging appointments, making travel arrangements, coordination of all government agency paperwork requirements, providing interpreters, in person and by phone, and even recommending entertainment options.

AdventHealth Orlando is also ranked No. 35 in the nation by *U.S. News & World Report* for neurology and neurosurgery. The AdventHealth Neuroscience Institute, with locations throughout Central Florida, attracts patients from around the world with its world-class expertise and treats more neuroscience patients than any other hospital in the nation.

The AdventHealth Transplant Institute in Orlando is in the nation's top 1 percent for patient satisfaction. The institute has transplant programs for the heart, kidney, liver and pancreas. More than 4,000 kidney transplants have been performed. It is also the first and only lung transplant program in Central Florida. The Bartch Transplant House is available for patients and their families who are traveling more than 35 miles to receive treatment. Located next to the AdventHealth Transplant Institute, this facility provides support and amenities at a reasonable cost throughout the entire transplant process.

Nemours Children's Hospital

Located in Orlando's Lake Nona Medical City, Nemours Children's Hospital welcomes patients and their families from across the world who seek second

opinions and life-saving medical treatment. The hospital has treated children from more than 50 countries and treated 1,000-plus children from around the world for skeletal dysplasia.

International families come to Nemours for the hospital's expertise in cancer treatment, heart care, neurology and neurosurgery care, complex orthopedic surgeries and vascular anomalies. Nemours is nationally ranked in many specialties such as orthopaedics and endocrinology. Its orthopaedics program even performs more operations than any other in Florida.

The hospital is also well-known for pediatric clinical trials for rare and complex conditions, an award-winning center for cancer and blood disorders, a cochlear implant program for children with profound hearing loss, its Spina Bifida Center of Excellence and its award-winning Nemours Center for Cancer and Blood Disorders.

The hospital is home to the first muscular dystrophy program in Central Florida certified and approved by the Muscular Dystrophy Association. Nemours has also heavily invested in pediatric diagnostic and interventional radiology by creating the largest and most experienced dual-trained pediatric radiology group in the state.

Nemours has a prestigious cardiac center that treats children with complex or rare heart conditions. One family traveled to Orlando from Alabama for their son who was diagnosed with tetralogy of Fallot, a birth defect that affects normal blood flow through the heart, so he could receive comprehensive treatment from the team of pediatric experts at Nemours.

Language barriers are not an issue at Nemours, with interpreters available for patients 24/7. Nemours also has financial specialists who work with a variety of international payers, including governments, embassies, insurance companies and sponsors. The hospital's travel services help patients make travel arrangements and can help determine if a visa needs to be obtained.

“The Orlando area offers some of the best healthcare in the world for those visiting from out of state or from across the world.”

MILITARY EXEMPTIONS FOR MDs AND DOs

Any licensee who is a member of the U.S. military on active duty who was in good standing with the board at the time of becoming active and was entitled to practice or engage in the practice of medicine in Florida may be eligible to be exempted from renewal requirements for the duration of active duty. This also includes a period of six months after discharge, but not practicing the profession in the private sector for profit. If you are the spouse of a member of the Armed Forces of the United States, you may be eligible to be exempted from licensure renewal requirements, but only in cases of absence from the state due to your spouse’s duties with the Armed Forces. For more exemptions, visit <https://floridasosteopathicmedicine.gov/renewals> and <https://flboardofmedicine.gov/renewals>.

Physician Assistants

Licenses for physician assistants expire at midnight, Eastern Standard Time, on January 31 of even-numbered years unless renewed. Prescribing physician assistants must complete 10 hours of CME in each specialty area of the supervising physician. These hours are included in the 98 general CME hours. Effective January 1, 2017, three of the 10 specialty hours must consist of a course on the safe and effective prescribing of controlled substance medications given by a statewide professional association of physicians in this state accredited to provide educational activities designated for the American Medical Association Physician’s Recognition Award Category I credit or designated by the American Academy of Physician Assistants as a Category I credit.

There are options for you if you are not ready to give up practicing medicine and are not ready to retire. When your medical license is placed in retirement status, you are prohibited from practicing any form of medicine. However, if your license is converted to a limited license status, you can still practice medicine on a volunteer basis to provide uncompensated care for low-income residents. A limited license is restricted to areas of critical need. Since physicians are working without compensation under the limited license status, license renewal fees are waived.

Nursing (RN and LPN)
